Maureen, Please find attached courtesy copies of the final Health Advisories for PFOA and PFOS. I hope our analysis and characterization of the Health Advisory values is helpful to you in communicating the risk associated with these compounds in drinking water. I will be on the call today at 4.

Best, Betsy

Eric

Got your voice mail. Yes, I heard that EPA is planning to release the documents on May 19th and we have a call on Wednesday at 4:00. I continue to be strongly concerned that we haven't seen the actual documents. So it is going to be very difficult for us to be able to explain the risk. This is a huge problem.

Maureen, we are in a technical edit right now and won't be finished with that until next week.

Betsy and Eric

Would it be possible for us to get an advance copy of your risk assessment? We absolutely promise not to share it. We expect that we will be inundated with questions when you release it and want to be able to respond quickly.

Thank you for your support.
